

Fax to Jim Adair (410-437-1373)

Your information will be passed along to the Mattawoman Watershed Society in support of our collective efforts to save Mattawoman Creek.

Thank You,

Crabtowne Bassmasters

Please save Mattawoman Creek!

The health of the Mattawoman watershed is threatened by growth from unnecessary highway proposals. I urge responsible officials to require the full study of an Environmental Impact Statement to determine the effects that the Cross County Connector extension would have on the Creek's high-quality living resources.

Give the fish
a voice.
